

PUSHING VERONICA

OFFICIAL PRESS KIT

SoCal alt-rock powerhouse Pushing Veronica first emerged as the brainchild of then-16 year old frontman Julien Silvås, a lifelong musician who'd already established himself on the scene via a Warped Tour appearance with his previous band, The Local Rebellion. Fixated on a mission to herald a renaissance in the worlds of pop-punk and rock, Julien continued to grow the lineup — currently consisting of original founding member and bassist Noah Rozansky, guitarist and bassist Hunter Kubat, guitarist Daniel Flores, and drummer Jason Maser.

Known for their uniquely catchy signature sound, Pushing Veronica build on the groundwork laid by legends from Queens of the Stone Age and Rage Against the Machine to Foo Fighters, Nirvana, The Offspring and beyond with an uninhibitedly irreverent approach. Lauded by major outlets like Alternative Press for their “infectious and high-spirited Green Day-like stylings”, the band have continued to grow their diverse and loyal fanbase over 4 US tours and a slew of other electric live performances to date.

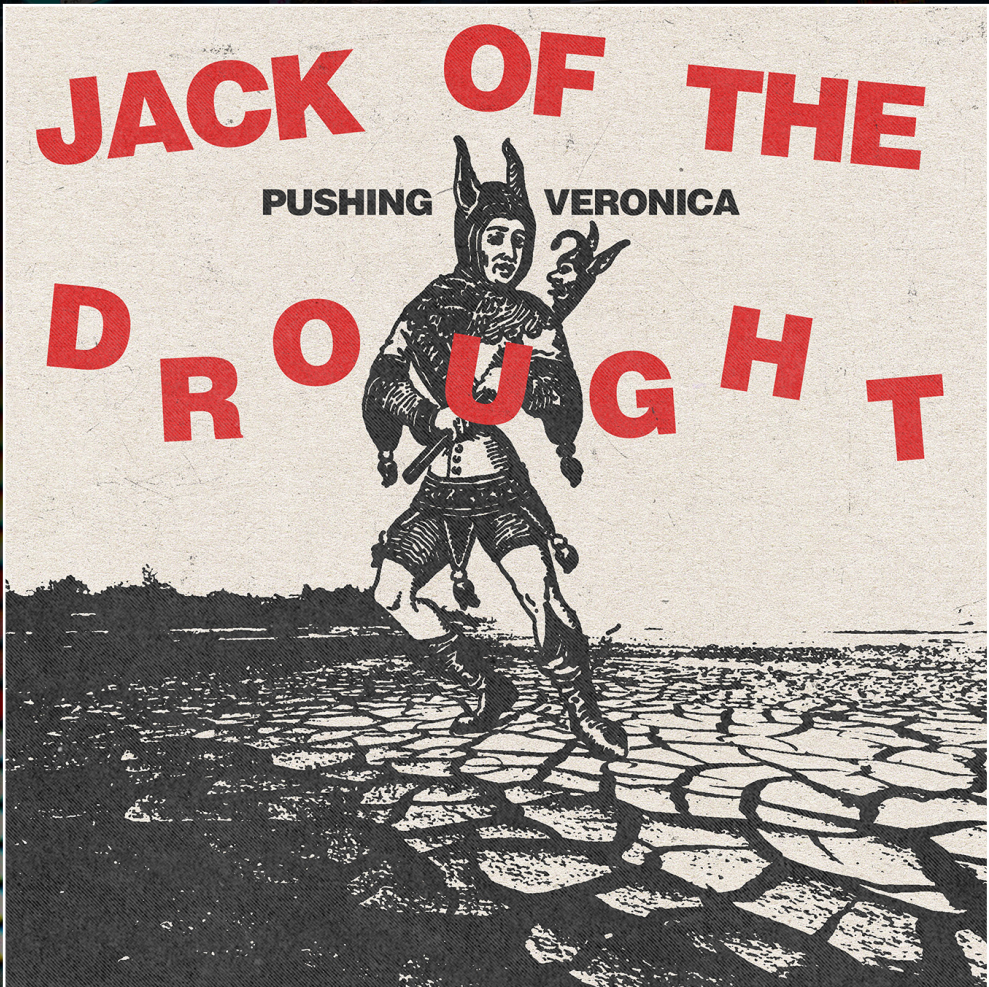

Following a string of achievements including collaborating with renowned directors Dean Karr and Brian Cox on music videos and working with Grammy-winning producer Dave Schiffman, Pushing Veronica's momentum is now at an all-time high as they prepare for their most ambitious year yet. Plans for extensive national and international touring — as well as for a string of new material — are already on the horizon, all to be announced in due time.
